WB Mapping for Results

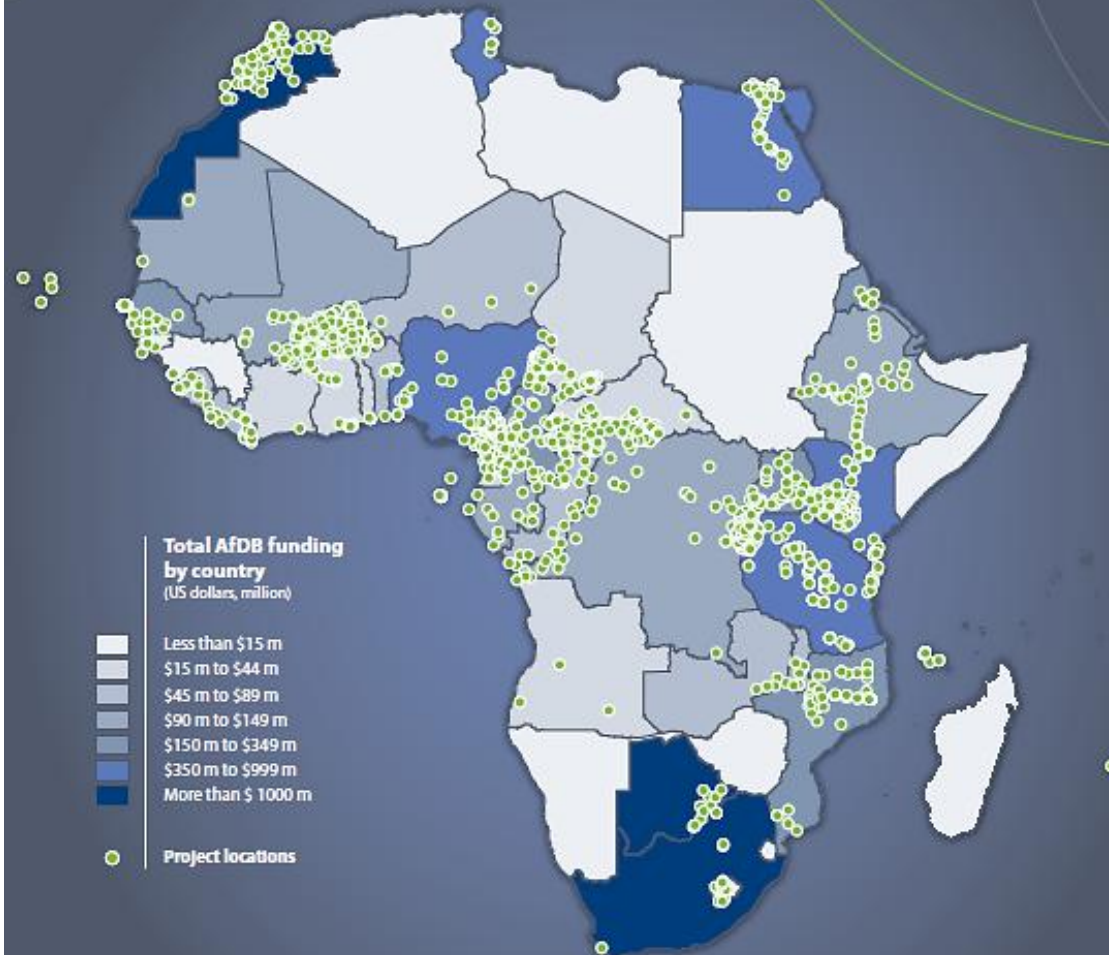

- Partnership with World Bank Institute Innovation Practice
- Launch of 79 WB IDA countries (plus China and Philippines) in April 2011
- Launch of all World Bank countries (144) presented at the 2011 Annual Meetings in September
- Approximately 2,700 active projects working in over 30,000 locations world-wide

- Malawi Aid Management Platform Mapping Exercise
- African Development Bank 2009-2011 Pilot
- World Bank Mapping for Results

AfDB operations in Africa

Operations approved in 2009-2010

The African Development Bank approved over \$15 billion in loans and grants in 2009 and 2010. To increase the transparency of its operations and better allocate its resources across the continent, AfDB has launched a pilot geocoding exercise. This map plots the geographic location of the 183 Bank operations worth over \$5 million that were approved in 2009 and 2010. The shades of blue depicted on the map correspond to the total amount of funding allocated to each country (see legend); this amount captures the value of all public and private sector projects and budget support that took place in the country, in addition to the portion of regional operations accruing to that country. Projects that can be pinned to a geographic location are signalled by the symbol ●.

Country Impact: Malawi

- Geocoding all projects in Malawi Aid Management Platform
 - 750+ projects from 30+ donors with nearly US\$7 billion in total funding
 - Geocoded \$5.7 billion from nearly 500 projects
- Integrating geocoded data into AMP for sustainable workflow and improved division of labor
- Work presented by Malawi MoF in Busan
- Replicable and sustainable process for other AMP countries

Malawi Aid Management Platform Projects and Poverty Headcount

Project Donor

- AfDB
- AusAid
- BADEA
- Canada
- CDC
- DFID
- EU
- FAO
- FICA
- GTZ
- ICEIDA
- IFAD
- Ireland
- Japan
- JICA
- KFW
- Kuwait Fund
- Norway
- OPEU Fund
- People's Republic of China
- UNDP
- UNESCO
- UNHCR
- UNIDO
- USAID
- WFP
- World Bank

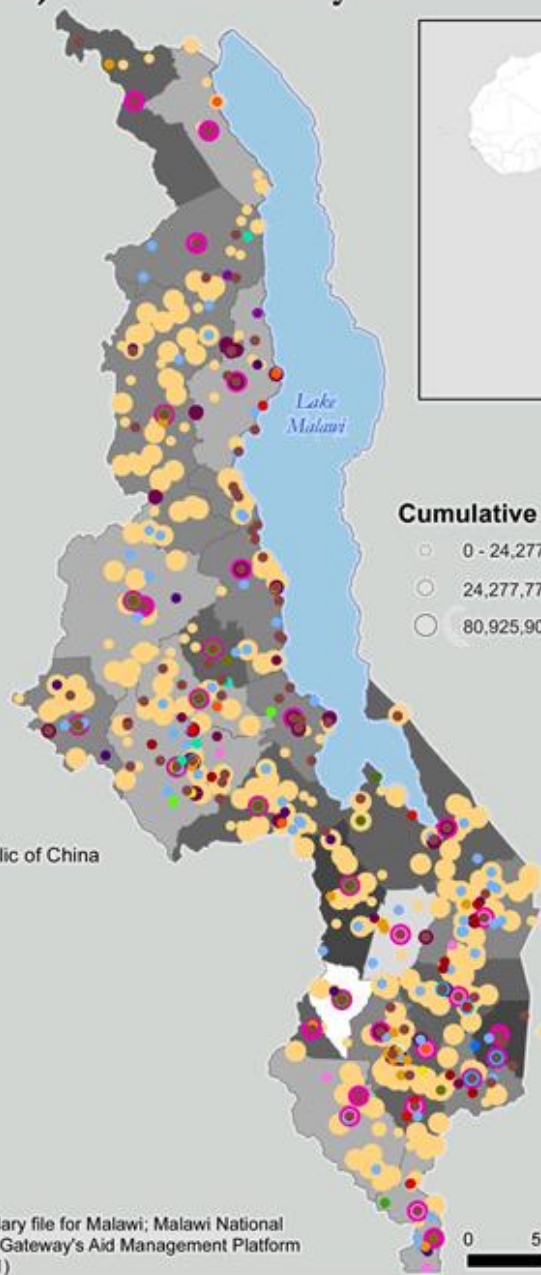

Cumulative Commitment (US\$)

- 0 - 24,277,770
- 24,277,771 - 80,925,900
- 80,925,901 - 630,000,000

Poverty Headcount

- 0.00
- 0.01 - 0.56
- 0.57 - 0.68
- 0.69 - 0.77
- 0.78 - 0.84
- missing data

Map Author: Kaiba White (2011)

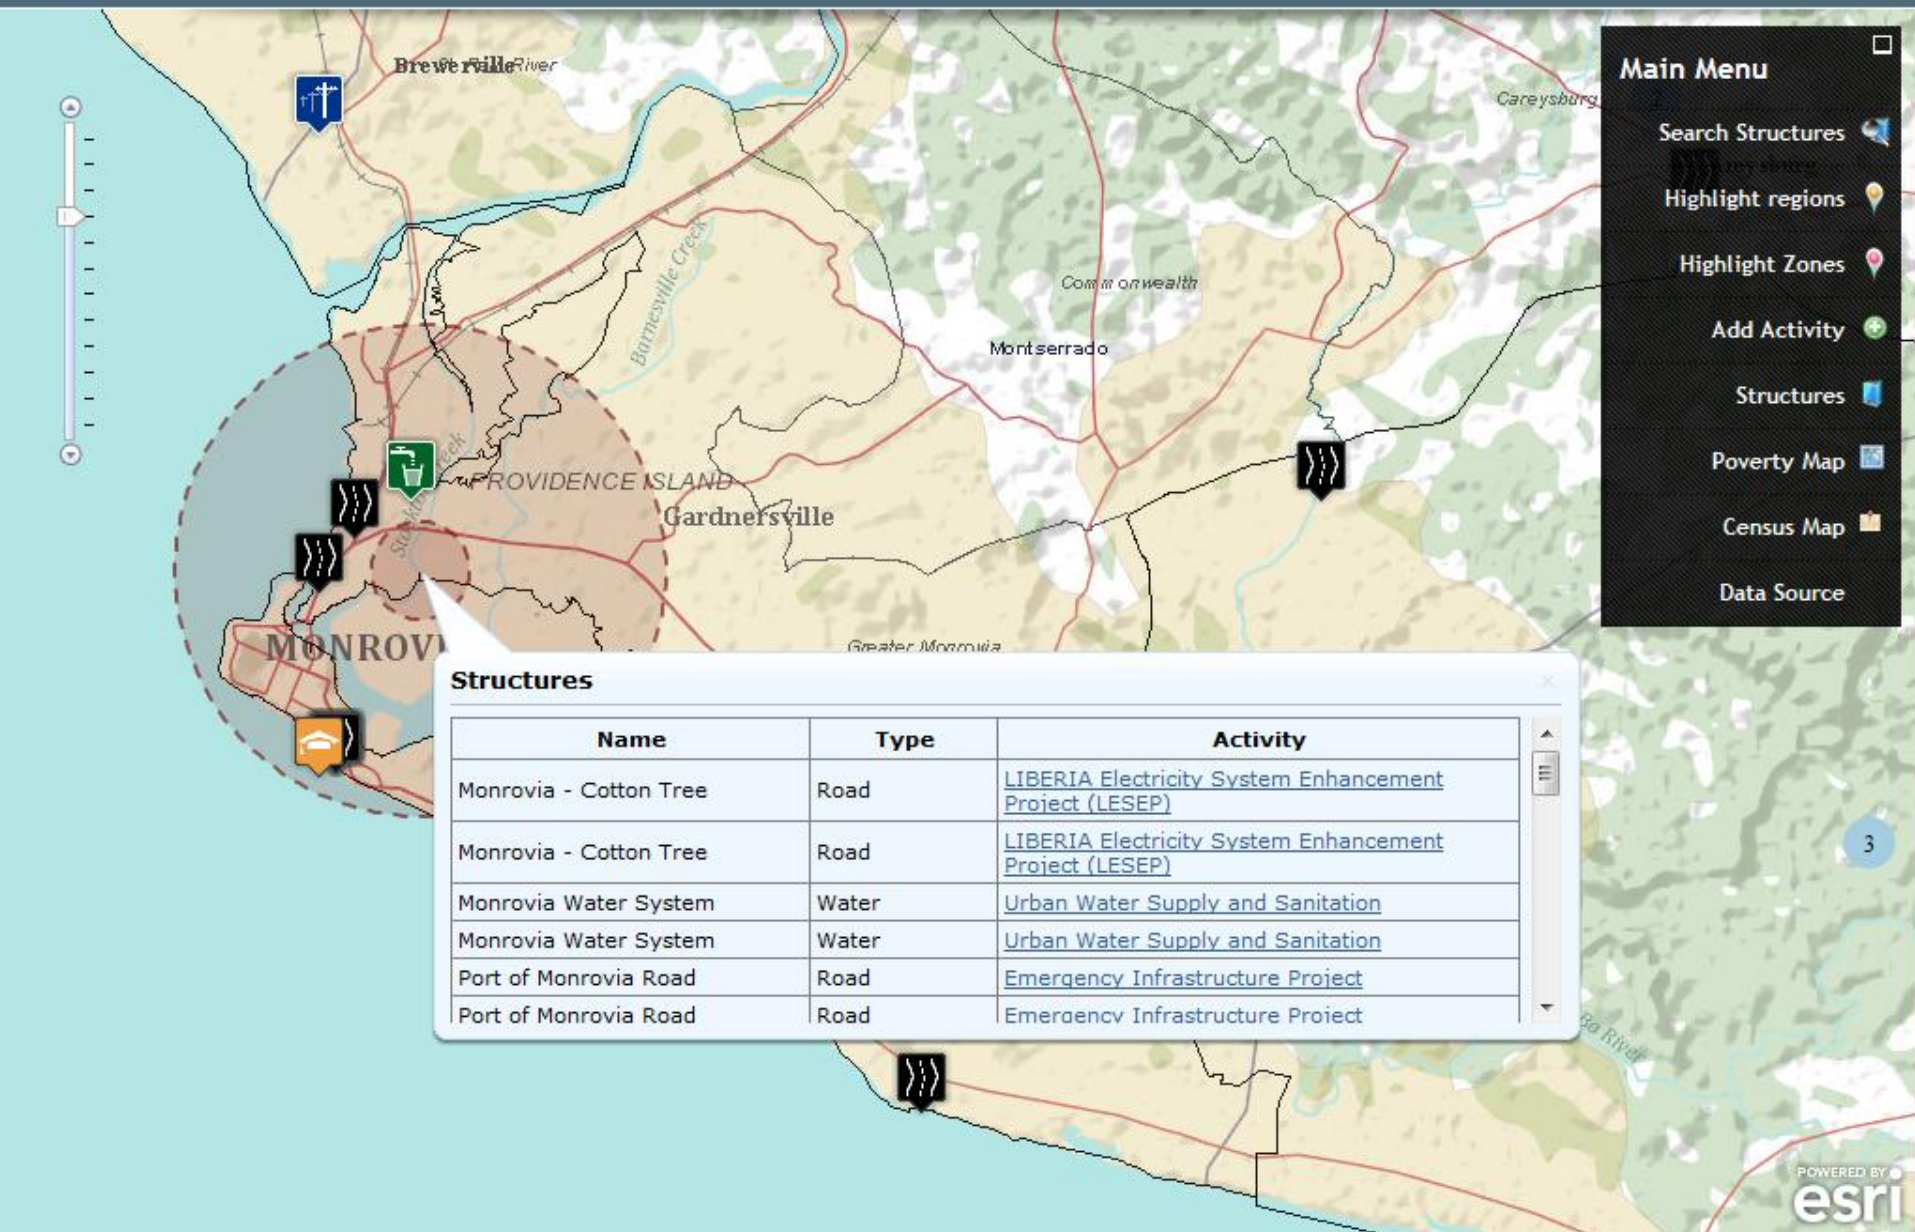

Country Impact: Liberia AMP

- Liberia Aid Management Platform GIS module
 - Instant GIS mapping
 - Identify and search for local activities
 - Improve division of labor
 - Report generation and planning
 - Streamlined visuals
- Module has become part of regular AMP implementation in 2012

Map Visualizations and Dashboards

- Full-featured visualizations
 - Integration of mapping and charts
 - Select geographic area and export selected locations
 - Examine projects by sector, donor, funding amount, etc.
 - Clustering function
- Potential use for local M&E and results evaluation
 - Overlays with socioeconomic data (poverty, malnutrition, population density, etc.) to monitor local impact and results
 - Edit and update project information, link to trip reports, site assessments, photographs, or other monitoring materials
