

# Open Aid Partnership

Innovations Labs  
World Bank Institute  
IATI Steering Committee  
Paris, March 13, 2013

THE WORLD BANK

# Why Open Aid and Why Maps Matter?

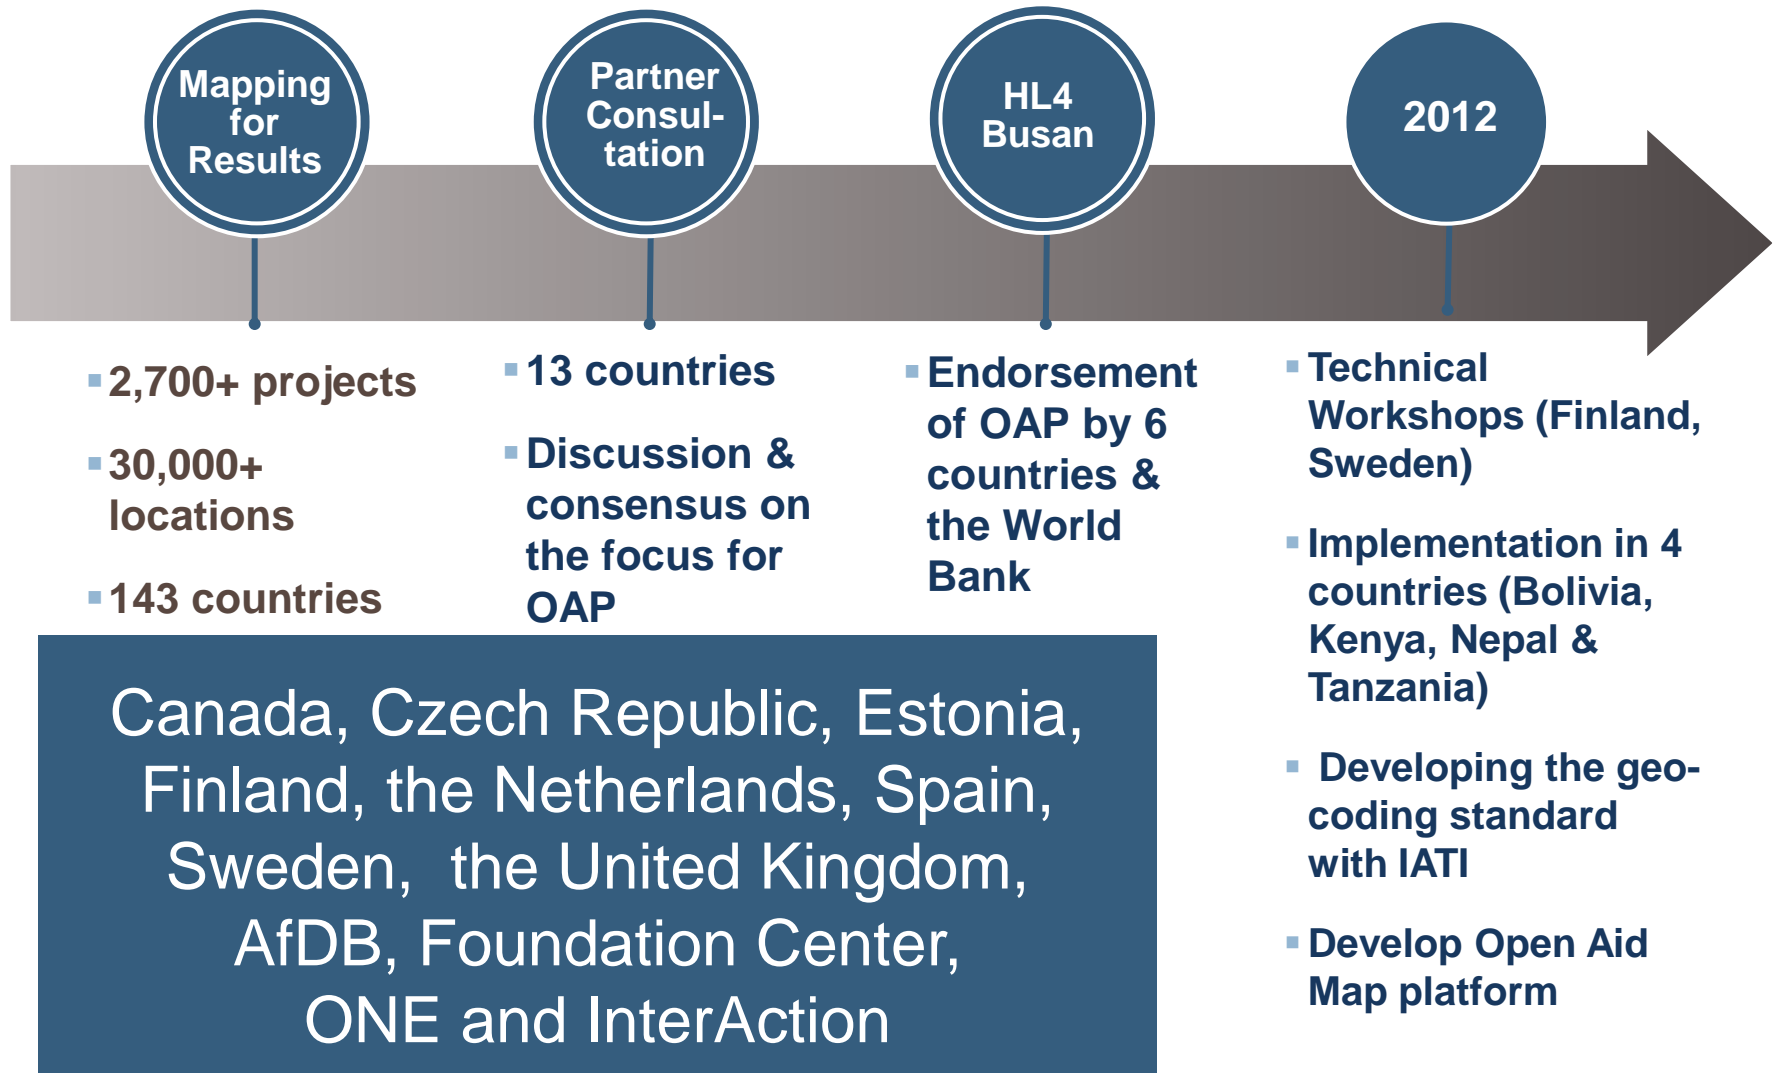

1. To enable **visualization** and **accessibility** of aid information
2. To advance **transparency** in line with IATI standards
3. To enable **citizens** and stakeholders to provide **direct feedback** on project **results**
4. To improve **efficiency** of increasingly scarce aid resources

# OAP Objectives

1. **Improve Aid Transparency:** increase transparency on aid flows and public service delivery
2. **Enhance Results:** Better target, monitor, and coordinate aid flows within countries
3. **Establish Feedback Loop:** Empower citizens and CSOs to provide direct feedback on project outcomes

# Key Components of Partnership

- **Open Aid Map** a common platform to show locations of donor programs
- **Country Platforms** for open aid flows and public expenditures
- **Capacity Development** to empower CSOs and citizens to effectively use and generate data
- **Citizen Feedback Loops** to promote citizen engagement in the delivery of public services
- **Impact Evaluations** to assess the impact of open aid on development outcomes

**My neighbors and my ...**  
My neighbors and my family agreed on asking if it would be possible for a staff member to provide more training for the new project, since we were not all here for the first one. Thanks a lot.

# Zambia: Lusaka Water & Sanitation Project

## Next Steps

1. Broader endorsement by donors and other partners
2. Build upon existing IATI standards with geo-standards
3. Leverage as communications tools to promote transparency agenda
